#### **Objectives:**

- To promote the competitiveness, sustainability and social impact of the resource and other non-wood forest products through the use of ICT and emerging technologies.
- To stimulate the transfer and sharing of knowledge on the use of emerging technologies that can radically improve productivity, sustainability, supply capacity, benefits, and social impact.
- Create effective links between entrepreneurs in the field of NTFPs, technologists and potential investors.
- To facilitate the development of viable innovation projects.

Aimed at: Forest entrepreneurs, technology companies, forestry companies, resin workers, entrepreneurs, academic sector, students, investors.

#### **Why should you participate?**

- Powerful contacts. At the event you will meet and work closely with other professionals in the sector with whom you will be able to create remarkably synergies to grow.
- Methodology. We will learn methodologies of prototyping and development of business models to be able to launch and test the viability of all your ideas.
- Inspiration. A group of people like you, with the same concerns and the same objectives, who come together to create opportunities and innovative projects.
- Visibility. If you want to make your idea or project visible, if you want to make yourself known as a professional, if you would like to present your great idea to the world, you cannot miss it!
- Mentors. Professionals with experience in the forestry sector and in entrepreneurship will help you to focus on what is really important for the ideas and projects to be viable.
- Recognitions and awards. A jury will determine the best ideas, which will receive awards and recognition in kind to support their further development.

### Frequently Asked Questions:

- Can I participate without having any ideas? Of course you can. In addition, when forming working groups, your participation will be very important to advance the ideas that we choose from everyone.
- How developed should my idea or project be? Nothing developed or already working, what we are interested in is launching new innovative ideas or promoting those that are already underway.
- Can I attend only part of the event? Yes, but no. The idea is for you to be present throughout the event because it is a continuous dynamic with certain steps. If you can only attend at some point, we will try to integrate you in the best way possible, but this is not recommended for you or for the other participants you will help.
- Will the whole event be in online format? Yes, the whole event will be developed through the Zoom platform and other shared work tools that we will explain on the first day of the event. You don't need to go anywhere, just have a good internet connection.
