“Cork oak forests and ecosystem services in the Mediterranean: market development tools”

Introduction: Producing, processing and consuming cork is beneficial for the protection of highly valuable ecosystems, i.e. cork oak woodlands, whose conservation heavily depends on the persistence of human intervention in the forest. This two-day event will discuss the role of cork oak woodlands in providing ecosystem services (ES) and showcase tools that contribute to sustain rural livelihoods, forest owners and managers, and industries engaged in sustainable forest management (SFM). Recognition and marketing of ES can play a key role in supporting rural incomes, encourage good land stewardship, and therefore contribute to the conservation and sustainable use of cork oak woodlands. However, there is also much scepticism about the effectiveness of the existing tools in compensating ES provision. In order to gain a more realistic collective vision, examples and best practices from across the Mediterranean will be presented, along with the local enabling framework conditions needed to support them.

Addressed to: Cork oak forest owners and managers, forest owners' associations, cork enterprises, local communities, decision makers, local authorities across the Mediterranean.

Language: English, translation to and from Italian provided.

Objectives to be reached:

A. Participants:

- get to grips with cork oak woodlands' potential in delivering ecosystem services;
- become aware of the main tools and trends to promote ES and fair returns to the cork value chain;
- agree on the future steps to support innovative tools
- lessons learnt from past experiences, and of course:
- become familiar with INCREDible network and objectives

B. Cork iNet questions directly targeted:

- How can we better evaluate the ES provided by cork?
- Is forest certification a viable tool to increase social awareness and compensation for ES?
- What framework conditions are needed to organize payments for environmental services (PES)?

Date: Thursday 21st and Friday 22nd November 2019. The event will take place during the 2019 Sardinian Forest Year (Anno Forestale 2019, 18th-22nd of November – also hosting the EURAF2020 pre-congress meeting).

Location:

21st Nov - plenary held at Consorzio Universitario Nuorese – 1st floor Via Salaris, 18 (Nuoro, Sardinia - Italy);

22nd Nov – in the field: various stops across the historical regions of Nuorese and Gallura (Central and NE Sardinia).

Sign in: To register to the event please [Register here](#) by October 30th 2019. For any further request please send an email to: incredible@forestas.it ”

AGENDA

Thursday, November 21st, 2019 Nuoro, Via Salaris 18

8:30	Registration of participants
9:00	<p><i>Welcome address</i></p> <p><i>Cork oak woodland management in Sardinia's state forests</i></p> <p>General Director (Agency FoReSTAS)</p> <p><i>The Cork iNet of INCREDible, the European thematic network on Mediterranean NWFP</i></p> <p>Inazio Martinez de Arano (EFIMED)</p> <p><i>Objectives and structure of the workshop</i></p> <p>Steven Libbrecht (ESSET)</p>
Session 1. Can forest certification be a valuable tool for leveraging ecosystem services of cork oak woodlands?	
9.30	<p><i>Keynote: The ecosystem services provided by Mediterranean cork oak woodlands</i></p> <p>Miguel Bugalho (ISA/WWF)</p>
10.00	<p><i>Green Heart of Cork: an FSC certification experience in Coruche (Portugal)</i></p> <p>Conceição Santos Silva (UNAC)</p> <p><i>FSC certification, new tools and opportunities for valuing ecosystem services</i></p> <p>Ilaria dalla Vecchia (FSC Italy)</p> <p><i>Non wood forest products and ES in the framework of PEFC group certification</i></p> <p>Antonio Brunori (PEFC Italy)</p> <p>Q&A</p> <p>Short introduction to posters</p>
11.00 Coffee break and poster discussion	
Session 2. Market tools supporting the delivery, recognition and rewarding of ES ... what lessons can be learnt from Mediterranean oaks?	
11.30	<p><i>Keynote: Payments for Ecosystem Services (PES): a realistic source of income?</i></p> <p>Sven Wunder (EFI)</p>

12.00	<p><i>Tools for the economic valuation of services provided by cork oaks in Ain-Snoussi (North Tunisia) - NWFP contribution to rural income</i></p> <p>Maryem Khalfaoui (INRGREF)</p> <p><i>New business models: multi-functionality in practice, a case study in Sicily (Italy)</i></p> <p>La Mantia Alfonso Sala Tedesco (University of Palermo Syfar)</p> <p><i>Improving marketing and communication of non wood forest products - Lessons learnt</i></p> <p>Nicola Andrighetto Enrico Vidale Jacopo Jacomoni (ETIFOR)</p> <p>Q&A</p> <p>Short introduction to posters</p>
13.00 Buffet lunch and poster discussion	
Session 3. Enabling framework conditions: EU funding, governance and forest owners' associations	
14.30	<p><i>Keynote: How to allow consistency of EU financial tools in the future programming period: the role of ES within the CAP 2021-2027 framework</i></p> <p>Raoul Romano (MIPAAFT CREA)</p>
15.00	<p><i>UNAC: the role of NGOs and third parties to overcome fragmentation (Portugal)</i></p> <p>Conceição Santos Silva (UNAC Portugal)</p> <p><i>Land owners' associations to promote ecosystem service evaluation (France)</i></p> <p>Florian Galinat (CRPF) (TBC)</p> <p><i>The role and potential of operational groups (OG) for governance - Progetto SUARU (Italy)</i></p> <p>Michele Ruii (Rete Fainas)</p> <p>Q&A</p> <p>Short intro to Posters</p>
16.00 Coffee break and poster discussion	
Session 4. Looking ahead: how can these tools be implemented?	
16.20	<p><i>Creating a common understanding on the barriers and steps needed to implement these tools as well as the actors involved</i></p> <p>Interactive session moderated by Steven Libbrecht (ESSET)</p>
17.30	<i>Final conclusions and workshop evaluation</i>
18:00	Closure

Some of the proposed posters for poster sessions

<p>Sess 1</p>	<p><i>The certified cork oak woodland of Miali Paprapinta – a case study from Sardinia (Italy)</i> Pino Ruiu (Agency AGRIS)</p> <p><i>Agroforestry and multi product certification: PEFC certified honey of Cansiglio (Italy)</i> Giustino Mezzalira (AIAF, ANARF)</p>
<p>Sess 2</p>	<p><i>Cork oak landscapes in the cork district of Sardinia – a case study (Italy)</i> Matilde Schirru (Univ. Sassari) – TBC</p> <p><i>ES value of cork oak landscape of Sardinia (Italy)</i> Angioletta Voghera and Emma Salizzoni (Univ. Torino)</p> <p><i>Cork oak landscapes of Sardinia: evaluation tools for the regional landscape plan (Italy)</i> Pulina, Airi (Forestas) Carroni (CREA) – TBC</p> <p><i>ES provided by cork oak woodlands managed by Forestas (Italy)</i> Corona Puletti Matilde Schirru (Univ. Sassari) – TBC</p>
<p>Sess 3</p>	<p><i>Towards a Med For HUB</i> Valentina Bacciu Salvatore Martire (CMCC e Climate Kick)</p> <p><i>Ecosystem Services trade-offs in cork oak woodlands, according to different land uses</i> Giovanna Seddaiu, Pier Paolo Roggero (University of Sassari)</p>

Friday, November 22nd 2019

Field trip in the Nuorese and Gallura Regions

08:30	Departure from Nuoro
9.00	<p>The field visit will lead you through public and private cork oak woodlands and silvo-pastoral systems of the Orune plateau: typical multi-functional systems of North East Sardinia. You will visit a monumental cork oak tree and enjoy a guided tour in the ancient cork oak woods of the nuragic settlement of <i>Su Romanzesu</i> (Bitti), within the “Oasi di Tepilora, Rio Posada e Montalbo” MAB UNESCO site.</p> 
	<p>Invited speakers:</p> <p><i>Agro-silvopastoral systems in Sardinia: unleashing the huge potential of multi-functionality</i> A. Franca (CNR ISPAAM) S. Dettori (Uniss) G. Seddaiu (Uniss)</p> <p><i>Multifunctional farms: multi product income and ES provisioning in Sardinia (agroforestry)</i> Ciriaco Loddo (LAORE)</p> <p><i>Adaptive Multi-Paddock and Ecosystem Services in Mediterranean Silvopastoral Systems</i> A. Pulina (Uniss)</p> <p><i>Plant diversity in an Adaptive Multi-paddock silvopastoral systems</i> Maria Carmela Caria (Uniss)</p> <p><i>The forest certification of the cork experimental station of AGRIS (Sardinia)</i> Pino Ruiu (Agris)</p> <p><i>Cork oak woodlands in the MAB UNESCO site Oasis of Tepilora, Rio Posada and Montalbo</i> President MAB Unesco and Mayor of the Municipality of Posada</p> <p><i>Cork oak cultural landscapes of Sardinia, in the regions of Gallura and Montiferru</i> Sandro Dettori Matilde Schirru (Uniss)</p> <p><i>Willingness to pay for cork oak landscapes – a case study in Sardinia (Italy)</i> Angioletta Voghera Emma Salizzoni (Univ. Torino)</p> <p><i>Cork oak landscapes of Sardinia: evaluation tools for the regional landscape plan (Italy)</i> Pulina, Airi (Forestas) Carroni (CREA) – TBC</p>
13:30	Lunch at an Agriturismo farm
15.00	Departure to the airport of Olbia
16.30	Farewell at Olbia airport /return to Nuoro at 17.30

Practical information

The workshop will be held on the 21st November in the town of Nuoro (Sardinia) at the Consorzio Universitario Nuorese – 1st floor Via Salaris, 18. Nuoro is located 102 km from Olbia airport. Travel options are by bus (2.40 hours) or car rental (1.10 hours). See also “transfers” below.

Participants are expected to arrive on 20th evening and depart on the evening of the 22nd. The field trip on the 22nd cork oak woodlands in the historical regions of Nuorese and Gallura (Central and North East Sardinia).

Hotel

In Nuoro there are many hotels and high-quality B&B. Prices range between € 40-70 for B&B to € 70-100 for hotels. Most hotels and B&Bs are at walking distance from the workshop venue. More info can be found at <https://www.uninuoro.it/venue-and-accomodation/>

Transfers

The Agency FoReSTAS will provide transfers to and from Olbia airport and Nuoro on the days of arrival/departure. On Friday 22nd of November a bus will bring participants to the various stops, leaving from Via Salaris 18 (Nuoro) at 8.30, and arriving at the airport of Olbia at around 16.30.

The workshop will take place during the “2019 Sardinian Forest Year”, 18th-22nd of November (Nuoro), supported by:
